

1. Project Title: Forecasting of COVID-19 Disease Spread by a Neural Network based Model
2. Expected Outcome: These project will be useful for doctors, researchers and government. The developed ANN models in this project is used to forecast Spread of COVID-19.
3. Expected Timeline: 1 Week to 12 Week
4. Remarks: NA
5. URL : NA
6. PI Details : Dr Amit Kumar Yadav, EEE Department NIT Sikkim, [amit1986.529@nitsikkim.ac.in](mailto:amit1986.529@nitsikkim.ac.in)
